25X1A 2. [redacted] Lawrence Houston and I accompanied Drs. Tietjen and [redacted] to a second session with the Intelligence Operations Subcommittee of Senate Appropriations on the Ellsberg case. After the hearing we were given three copies of the transcript of yesterday's hearing; two copies of which we are to correct and return to the Subcommittee by Monday afternoon.

Following this morning's hearing, I contacted Frank Slatinshek, Chief Counsel, House Armed Services Committee; Gordon Nease, Senate Armed Services Committee staff; Herbert Roback, House Government Operations Committee staff; and General Earl Anderson, Acting Commandant of the Marine Corps, and briefed them on the thrust of the session including the concern which Mr. Helms' expressed when he transmitted the second Ellsberg profile to the White House. I also attempted to contact Ralph Preston, House Appropriations Committee staff, but he was on the House floor and did not return my call.
